

**There are a
number of ways to
save water, and they
all start with YOU.**

North Texas Municipal Water District

505 E. Brown Street • P.O. Box 2408 • Wylie, TX 75098

972-442-5405 • 972-295-6440 fax

Conserve Water - Be Conservation-Minded

- ◆ **Check your water meter and bill to track your water usage.**
- ◆ **Choose new water-saving appliances, like washing machines that save up to 20 gallons per load.**
- ◆ **Don't buy recreational water toys that require a constant flow of water.**
- ◆ **Encourage your friends and neighbors to be part of a water-conscious community.**
- ◆ **Encourage your school system and local government to help develop and promote a water conservation ethic among children and adults.**

The North Texas Municipal Water District is an EPA WaterSense Promotional Partner. WaterSense approved products and services (like Energy Star) provide consumers with a way to quickly identify products meeting the EPA guidelines for conservation.

To learn more about the EPA WaterSense program and approved products, visit their site at:

<http://www.epa.gov/watersense/pp/index.htm>

- ◆ **Make suggestions to your employer to save water (and dollars) at work.**
- ◆ **Pick-up the phone and report significant water losses from broken pipes, open hydrants and errant sprinklers to the property owner or your water management district.**
- ◆ **Support projects that use reclaimed wastewater for irrigation and other uses.**
- ◆ **Use a commercial car wash that recycles water.**
- ◆ **When you shop for a new appliance, consider one offering cycle and load size adjustments. They are more water and energy-efficient than older appliances.**

HELP US MAINTAIN CLEAN DRINKING WATER SUPPLIES NOW AND INTO THE FUTURE

Your everyday contributions supporting this effort can make a difference.

**Do one thing
EVERY DAY
that will save water.**

**Even if savings are small,
every drop counts.**
