Tracking No. 25968987; RN101308781/CN601365448

Dear Mr. Rhoades:

We have completed the technical review of your application for the permit modification dated February 26, 2021, requesting changes to the existing site operating plan for the above-referenced facility to authorize the use of Posi-Shell Base Mix as alternative daily cover. The use of this material as ADC was previously authorized in temporary authorizations issued on November 27, 2019 and June 17, 2020. We have received six bimonthly status reports that indicate the ADC has been effective in controlling vectors, odors, and windblown waste. The information presented is technically sufficient for a permit modification, and a draft modification has been prepared.

You are now required to mail notice of the proposed modification to the current landowner list and all other persons listed in Title 30, Texas Administrative Code (30 TAC), §39.413, including persons on a mailing list maintained by the Texas Commission on Environmental Quality (TCEQ) Office of the Chief Clerk (OCC). Please contact the OCC Notice Team at (512) 239-3300 to obtain a copy of this mailing list. To assist you in meeting the requirements associated with this notice, the following items are enclosed:

- Notice of Application and Preliminary Decision (NAPD)
- Certification of the NAPD
- Draft Permit Modification Sheet

Please note it is very important that you follow all directions in the instructions provided below. If you do not, further processing of the application may be suspended; you may be required to re-mail the notice; or the application may be returned. If you have any questions regarding these notice procedures, please contact the OCC Notice Team at (512) 239-3300 before proceeding with mailing the notice.

1. Mail the notice in accordance with 30 TAC §305.70(i) and 30 TAC §39.1009. The text of the notice must comply with 30 TAC §39.411(b)(1), (2), (3), (6), (7), (9), and (11). Notice must be mailed to all persons listed in 30 TAC §39.413.
